

THE LARGEST SELECTION OF
HOSE & FITTINGS JUST GOT

LARGER!

- ✓ **Improve Safety & Efficiency of Hose Handling**
- ✓ **Reduce Exposure to Chemicals & Contaminants**
- ✓ **Easy-to-Clean, Can be Power Washed & Steam Cleaned**
- ✓ **Industrial Design is Durable, Lightweight & Cost Effective**

Hose & Pipe Safety Handles

Easy-to-Use One Handed
Lock & Release Operation

2 Handle Grip Locations
for Left or Right-Hand Use

Ergonomically Engineered for
Safer Lifting & Maneuvering

On-the-Fly Retention Adjustability

Lightweight yet Durable
Long Glass Nylon Construction

FC500 X-Flex SAE 100R13

Manufactured with the latest technologies and advanced material compounds which permits a dramatic improvement in flexibility, durability and pressure rating!

- 1/2 SAE Bend Radius
- Dura-Tuff Provides 5-8x the abrasion resistance over standard hydraulic hose covers
- 5076psi in All Sizes

DURA-TUFF

46%

Less Force to Bend

Air-On-Demand

Compressed Air Piping System by NEW-LINE

Air Anywhere

No more dragging the compressor behind you and untangling the air hose and electrical cords. Reduce shop clutter and have consistent compressed air instantly, anywhere.

Economical

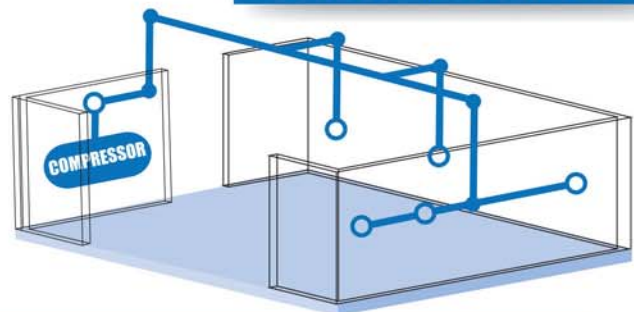

An alternative to black or copper pipe installations, the modular design makes it less expensive to install than the traditional methods. With the AOD system there is no interior pipe corrosion, which results in longer tool life!

Easy-to-Install

The AOD system includes quality Push-in style fittings, aluminum air manifolds, air outlets and nylon tubing.

Eaton Aeroquip Triple Crown Hydraulic Hose & Fittings

Select Eaton Aeroquip hoses offer distinct advantages in three areas: pressure, temperature & abrasion resistance, which exceed all SAE and EN spec competitive equivalents.

24%
Greater Pressures

Gasolia PTFE Thread Sealant

Gasolia is a soft-setting, non-toxic PTFE paste that provides a positive seal on pipe threads, joints, fittings, LPG, hydraulics, engines and more!

GASOLIA

Up To
20%
Alcohol Blends

Composite PTC

These "one-touch" tube fittings are designed as a quick & easy push-to-connect connection for air/pneumatic systems up to a maximum of 150psi and 29.5 in/Hg vacuum.

Up To
65%
Lighter than Compression

Serpent Air & Water

Serpent Air & Garden hoses are amazingly flexible, light-in-weight, easy to handle & provide superior abrasion resistance when dragged.

20%
Lighter Than Rubber

Gauges

We've expanded our inventory of pressure gauges to make sure we have what you need to keep you moving!

Larger Inventory

Goodyear Insta-Lock Jump Size Camlocks

- Reduce accidental disconnection
- Completely interchangeable with all camlocks
- Reduce the number of potential leak points

Reduce
Leak Paths

GOODYEAR
ENGINEERED PRODUCTS

LeakSeal Service Plug

Plug old hoses or rigid pipes to avoid oils & chemicals from contaminating the environment, or to preserve oils & liquids inside systems during maintenance or repair.

Avoid
Contamination

Expansion Joints

Whether you're looking to absorb pipe movement, reduce system noise or compensate for offset alignment, our range of expansion joints have the answer!

Available Up To
30"

Parts-2-Go Service Kits

Parts-2-Go Service Kits are ideal for your truck or shop to allow for quick & easy repair, adapt or cap/plug your line and are designed to keep to you moving!

N66-SK2000
Brass Hose Barb Field Repair Kit

N66-HYD001
Steel Hydraulic Adapter
Cap & Plug Kit (JIC, ORB & NPT)

N66-SK6000BI
Black Malleable Iron Pipe Fitting Kit

N60013-8
Plastic Cap & Plug Kit
(NPT, JIC, ORB, ORFS)

N66-SK1400
Air Brake Service Kit
Brass Nylon Compression

Armadillo HC

Our Armadillo HC hose cover is an innovative, proprietary solution for applications that demand a more durable, longer-lasting hose that provides best-in-class flexibility, ease of handling and abrasion resistance!

SUPERIOR
ABRASION
RESISTANCE

30%
 Longer Lasting

Safety Push-Button Quick Couplers

These safety quick couplings represent the latest generation of pneumatic connection safety mechanisms. They're available in Automotive (Red), Industrial (Blue) & ARO Interchange (Yellow).

Hydraulic Testing & Diagnostic Kits

Our testing & diagnostic kits can help you isolate & determine system inefficiency. Available in North American & European adapter port configurations.

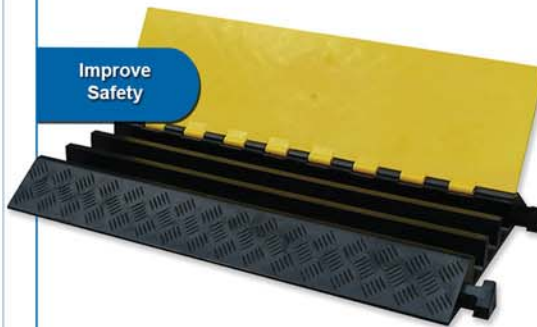

Hi-Vis Yellow/Black Rubber Hose & Cable Bridge

Easily Route and Protect Hose & Cable!

NEW

Construction: Hi-Vis, non-conductive PVC top with 3 or 5 channel interlocking rubber base
Load Capacity: 3-channel 48,000lbs / 5-channel 40,000lbs / Large Diameter 2-Channel 40,000lbs
Channel Width: 3-channel 2.50" / 5-channel 1.30" / Large Diameter 2-Channel 5.4"
 22.5° left & right corner pieces allow for a change in direction

Portable Crimper

This portable crimper is fast & easy to use! It's lightweight compact body is only 45lbs and capable of crimping 1 & 2-wire hose up to #16.

Caddy Hose Reel w/ Serpent Waterline & Nozzle

Supplied with 5/8" x 100Ft Blue Serpent Waterline & Premium Garden Nozzle.

On-Site Mobile HoseShop

- Standard Turnkey or Customized Inventory Options
- Hose Assembly Equipment & Tooling
- Short Term to Permanent Installation
- Various Rental or Purchase Options

Rotary Turbo Nozzles

- Cleans twice as fast over regular nozzles
- Great for stripping paint & cleaning cement
